KIJEKA

- "Kijeka" Manual drum Tilter truck raises, transports, rotates, tilts and drains fully loaded drums.
- It carries the full weight of the drum, Dual, fingertip operated locks secured the raised drum.
- **It can lock a drum in vertical position to avoid spills or horizontal position for draining through a faucet.**
- when unlocked, the drum may be turned end-over-end to agitate contents or tipped and held manually at an angle. so, **this series can be used as a drum mover or a drum dispenser.**
- **Capacity: 350 Kgs**
- **Suitable Drum Size:** 210 Liter Standard Diameter & Height HDPE Drums & Steel Drums
- It is very simple to move and steer on its 8" Nylon/HDPE/PU roller bearing wheels and 4" swivel caster.
- **Lifting:** Pull the handle manually to achieve the purpose of lifting.
- **Positioning:** There is a Spring Lock device on the left column of the frame
- **Flip:** Manually flip the Barrel to achieve the purpose of flipping the material.
- **Weighing:** If you need to weigh a heavy bucket, you only need to push it to the scale under the state of lifting and positioning.
- **Duly power coat Finish & ready for use.**
