KIJEKA

- The Low-Profile Drum Caddy is ideal for vertically positioning and transporting steel, plastic, and fiber 30 or 50-gallon drums.
- High-strength steel construction offers long-lasting, rugged use.
- A removable handle is used to tilt the drum for position on the dolly and features a built-in bung nut wrench and seal remover.
- Drum caddies with three wheels and a low profile (Approx Height is 1/2" From Ground)
- **Capacity: 500 kg**
- **Operation:** To operate, align the unit in front of the drum, remove the handle, and grip the drum with the handle. Then tip the drum and guide the unit under it. Then reattach the handle to the caddy, and the unit then is ready to transport the drum.
- Make spills a thing of the past by transporting vertically with the Open Drum Cart.
- This sturdy and navigable drum truck will ease your drum-moving workload.
- Duly powder coated and ready for use
