KIJEKA 
We build tough Since 1980

THE KIJEKA

With over 45 years of industry expertise, Kijeka is a global leader in the design, production, and distribution of ergonomic material handling equipment. Specializing in solutions for handling liquids, solids, and gas cylinders, we serve a wide range of industrial applications.

Our extensive product portfolio features **more than 1,000 innovative products**, many of which are readily available for **immediate shipment**. Today, Kijeka proudly exports to over **30 countries worldwide**.

At Kijeka, we are committed to engineering solutions that **enhance productivity, improve workplace ergonomics, and reduce worker injuries**. Our team is dedicated to understanding your unique needs and delivering reliable, cost-effective solutions that drive real results.

Visit Us - Live Product Display We invite you to experience our products firsthand at our Live Product Display hosted at our manufacturing plant. See our equipment in action & discover how Kijeka can support your operational goals.

THE TRAVEL

Kijeka Engineers was founded in 1980 by visionary entrepreneur Mr. Rameshchandra, establishing its headquarters in Ahmedabad, India. Over the past 45 years, the company has steadily evolved from a local manufacturer into a globally recognized leader in ergonomic material handling solutions. Our journey is built on a foundation of quality, innovation, and unwavering commitment to customer success.

At Kijeka Engineers, we understand that each industry and operation has unique challenges. That's why we specialize in designing and delivering customized material handling equipment tailored to the precise needs of our clients. Whether you require specialized solutions for handling liquids, solids, or gas cylinders, or need expert on-site technical support, our experienced team is equipped to provide comprehensive assistance from consultation through installation and beyond.

Our product portfolio, featuring over 1,000 innovative and ergonomic handling devices, is engineered for durability and performance. We maintain rigorous quality standards

to ensure that every product delivers reliable, long-lasting results-helping reduce workplace injuries and improve productivity.

Staying at the forefront of technological advancements is key to our continued success. We invest in research and development and actively monitor industry trends to innovate new solutions that meet the evolving demands of our customers worldwide. Today, Kijeka Engineers proudly exports its products to more than 30 countries, serving a diverse range of industries with consistent excellence.

Customer satisfaction is the cornerstone of everything we do. We build lasting partnerships by providing not only superior products but also dedicated support, training, and service—ensuring our clients maximize the value and efficiency of their material handling operations. As we look to the future, Kijeka Engineers remains committed to pushing the boundaries of ergonomic design and operational efficiency, helping businesses around the world achieve safer, more productive workplaces.
